

LAUNCHIXIS Playbook

Ship a money site before midnight. Compiled for operators who already have Grok and Grok Bot.

The offer

Sell a digital file, not a dream. Price: \$19. Delivery: this PDF + the HTML site. Buyer gets a working storefront they can remix. You get paid the same hour.

Stripe in 5 minutes

1. stripe.com → Payments → Payment Links → New. Amount 19.00 USD. After payment, show a thank-you page and attach this PDF (or email it). 2. Copy the link. 3. Paste it into index.html on the button with id=buy.

Deploy in 10 minutes

Push the folder to GitHub. Import the repo on vercel.com (free). Domain optional — the vercel.app URL is enough for tonight. Point the buy button at Stripe before you tweet.

Grok prompts (paste as-is)

Copywriter: Rewrite the hero of index.html for [NICHE]. Keep under 12 words. Make the italic line the result, not the feature.

Closer: Draft 8 X posts under 220 characters announcing the \$19 pack. Specific, no hype words like revolutionary.

Grok Bot job: You are Deployer. Watch this repo. When index.html changes, confirm the Stripe href is a live pay.stripe.com link, then reply with the public URL and a 3-line launch tweet.

First 20 buyers

Post the live URL 5 times today in different phrasings. Reply to people asking how to launch. Do not ask permission. Send the PDF the minute Stripe fires. Tomorrow, raise the price to \$29 or add a \$49 'done-with-you' call.

What this is not

This is not a hosted company, not a subscription, not legal advice, and not a guarantee of revenue. It is a complete folder and a sequence. The dollar happens when a human pays. Everything else is theater.

LaunchIXIS · 2026-09-14 · Keep the first dollar ugly.
